

PRODUCT DATA SHEET

HEAVY DUTY DEGREASER

PRODUCT DESCRIPTION

Hi-Tec Heavy Duty Degreaser is composed of petroleum solvents and a detergent emulsifier. The cleaning action of the solvents is enhanced by presence of aromatic components which improve penetration and solvency.

Hi-Tec Heavy Duty Degreaser can be used for cleaning machinery, workshop floors and other surfaces that are heavily contaminated with grease and oil. Apply liberally and work into surface with a brush. Hose off with cold water. The oil and degreaser form a milky emulsion which will wash away leaving the surface free of grime. The emulsion formed is not stable and will soon separate into its water and oil components. This rapid separation is important for environmental reasons. The emulsifier used is made from vegetable sources and is biodegradable.

Please dispose of any washing according to federal and local authority requirements.

TYPICAL PROPERTIES

PROPERTY	RESULT
Flash point:	40°C
Boiling Point:	150°C - 190°C
Auto Ignition Temperature:	300°C
